

# Everything Geberit

**At Geberit, we use our passion for design and technology to deliver contemporary, high quality solutions that transform efficiency, increase safety and enhance living and working environments.**

**As a European market leader in sanitary technology and innovation, we apply our vast Know-how and over 150 years of experience to everything we do. With our continuous focus on research and development, we introduce progressive, pioneering and fully integrated products to market year after year.**

**By listening to our partners, nurturing relationships and thinking ahead, we are able to constantly update and develop our offering, creating user-friendly, globally renowned solutions and building lasting partnerships founded on mutual trust and values.**

## **Our values. Our commitment to you.**

### **Know-how**

We use our experience and technical expertise to create solutions that make a real and lasting difference, delivering advanced training through our worldwide academies.

### **Innovation**

Every new development is based on solid research and the latest innovations. The quality of our R & D ensures that we stay ahead in sanitary technology.

### **Partnership**

Our customers are the focus of everything we do. We build better relationships by working together to discover more effective solutions.

### **Reliability**

We aim to create durable solutions by simplifying the complex and ensuring the safety and dependability of our products and systems throughout their life cycles.

### **Quality of life**

Our intuitive products enhance modern living, by setting new standards in design and functionality. Our focus on water economy is part of our long-term contribution to the environment and society.

# Making more reliable connections.

Wherever reliability, safety and consistency are required, Geberit Supply Systems can supply a more effective answer.

Water, gas, compressed air, energy, cooling, you name it, Geberit can connect it, forming a consistently dependable transportation solution.

## Geberit Mapress

Geberit Mapress is the pipe pressing system you can press into action everywhere. With a wide range of materials and seal rings, it provides a specialist fit-and-forget solution for all applications where speed and safety, flexibility and efficiency are of the highest priority. Because it can be fixed wet with no draining needed and there is no cooling down required, it dramatically cuts installation time and downtime, ensuring a safe, long-lasting connection every time.

## Geberit Mepla

Geberit Mepla is the safe, simple, economic and hygienic multilayer pipe system, featuring a proven combination of PVDF, gunmetal and brass, making it the perfect system for potable water and heating applications.

With an inner pipe made of PE-RT, an aluminium pipe and a protective PE-RT layer on the outside, processing is easy and flexible, ensuring a high degree of safety and reliably tight connections, whilst complying with the strictest hygiene standards.

# Superior solutions for drainage systems.

Nobody knows more about safely transporting water than Geberit. Our Know-how covers every kind of water pathway in domestic, commercial and industrial buildings. From connection to the water supply and building-wide distribution, all the way up to drainage from rooftop and multi-storey floors, our joined-up thinking creates all round connectivity, making our solutions the first choice for hydraulics, fire protection, sound insulation, easy maintenance and environmental compliance.

**Geberit Pluvia** has revolutionised drainage from large roof areas. Come rain, shower or downpour, our siphonic roof drainage system uses negative pressure technology to deliver a discharge rate almost twice that of conventional systems, for maximum performance with minimum pipework.

**Geberit HDPE** brings proven capability to waste disposal wherever high resistance is required. From extreme temperature changes and pressure shifts to aggressive media, it offers the ultimate professional solution.

**Geberit Silent – db20** is the versatile waste and drainage system that quietly gets on with the job for discharge stacks and floor connections, combining effective sound insulation with a high discharge capacity.

**Geberit floor and wall drainage** simplifies installations everywhere. From Geberit shower channels and floor drains to the innovative Geberit shower element with wall drain, we combine safe and speedy drainage with hydraulic Know-how, easy cleaning and blockage protection. While our waste fittings and traps take safety, reliability and discharge capacity to a new level, so everything fits together perfectly.
